Forecast for Tuesday 31 May 2022

Weather: Cloudy with occasional rain or showers at first on Tuesday morning; the showers heavy at times, with a small risk of hail and thunder. The showers will become more isolated and lighter mid-morning onwards, with most places becoming dry with lengthening sunny periods mid-afternoon onwards. Clouding over during the evening, with further showers arriving just before midnight.

Chance of cloud-free hill tops above 600m: 60% at first improving to 100% by mid-morning.

Low cloud and visibility: Some poor visibility over the higher routes at first with cloud bases lowering to 500-600m at times, especially in association with heavier showers. Cloud will lift clear of the summits by mid-morning and will remain above the summits through the rest of the day. Visibility beneath cloud generally good, but deteriorating to locally moderate or poor in showers.

Forecast for Wednesday 01 Jun 2022

Weather: Occasional heavy and possibly thundery showers during the early hours of Wednesday will clear eastwards before dawn. Sunny spells and isolated showers during the morning with the showers locally heavy and with a risk of hail and thunder. The afternoon will become dry with lengthening sunny intervals.

Maximum wind: Westerly 15-20 mph gust 25mph.

Chance of cloud-free hill tops 600m: 60% at first improving to 90% or better by mid-morning.

Low cloud and visibility: Areas of cloud occasionally covering slopes above 400-500m during the early hours and at first Wednesday morning, mainly in association with showers. Cloud lifting and breaking to small amounts nearer 700m by mid-morning and then clear of the summits during the afternoon and evening. Visibility beneath cloud generally good, but deteriorating to locally moderate or poor in rain and showers.

Temperature: **Valleys:** Plus 6 Celsius becoming plus 15 Celsius.
At 600m: Plus 8 Celsius.
Freezing level: Above the summits.
